

NAVIGATING THROUGH STORMS

Rev. Boniface G. Gitau

Before a storm comes the sky is nice and clear. One is able to have a very clear vision of where he is going. But when the storm comes the vision gets very blurry and even though we know we are on the right course we have a tendency to steer away from our vision. Although this may offer temporal relieve it will keep us away from realizing our vision. However hard the storm is raging often causing loss and damage we should keep our focus because the Lord is faithful to carry us through.

As you navigate through the storms of life changing course away from the storm should not be an option. Therefore, in such moments respond to that inner urge compelling you to stay focused on your vision.

During stormy seasons the “now” circumstances can distract you from the big picture of what God has in store for you. In times of storms take one day at a time and thank God for the success of each day.

Remember there is no storm that is permanent in life it is always temporal and though it rocks your boat know that what awaits you on the other side is worth fighting for.

May the Lord bless you.
